Sir. - I read with great interest and attention in your issue of to-day the remarks of "Benian" n the forthcoming nomination or election (which is it?) of the two new unofficial members to our local Parliament. In the first place I am not sure that the four gentlemen named are the only eligible candidates, though I believe they have the best claim by position and ability for the honour of a seat at the Council. NINGPO.

19th November. Whilst walking through the foreign Settlement on Sunday (the 18th inst.), I met with ten natives of the Liuchin Islands, and with the assistance of a little broken Japanese and a great many signs I gained the following intelligence, which I thoroughly believe to be the truth. The men form part of the crew of a tradingjunk that left Jenku, one of the Linching, on

the 18th of July last. Meeting with bad weather drifted about for no less than eighteen days, until ten of them were taken off by a Chinese junk; two having been drawned meanwhile. and three having died of exposure and starvation. They were landed at Chinhai, where they have been kept prisoners, to all intenta and purposes, by the Chinese authorities, being sent, however, two or three times to Ningpo to undergo an examination by the Cheheien of that district. It seems that whenever the poor men find themselves near the foreign Settlement they will be well treated, for the Chinese have a hard matter to get them away again. They told me they had received several good cumshaws from foreigners here, but these were always stolen from them by their Chinese guards. The poor fellows said with tears in their eyes that they had all wives and families at home who won give them up for lost, and they would soon able to find their way back it the authorities would only let them go. But it seems that the hinese will not recognise them as Japanese subjects, and persist in treating them like natives. hope the Japanese Consul-General in Shaughai will see fit to take this matter up promptly .-N.
